

Banner Example Schematic

Please note that the City's banner hardware is permanently installed and cannot be adjusted to fit banners that are not produced to the exact specifications

Overall Size: 8 feet high x 2.5 feet wide, that includes 7 inch pockets at the top and bottom of the banner (all dimensions must be exact)

If you elect to sew banners online, add a $\frac{1}{2}$ inch at the top and a $\frac{1}{2}$ inch at the bottom to the overall banner height. Preferably have banners sewn as indicated in the diagram, noted by the dotted lines noted on the face of the banner. Banners not made to these specifications **WILL NOT** fit on the street pole equipment.
